

Voices Together is an innovative and rapidly growing non-profit organization headquartered in Chapel Hill, North Carolina. We currently serve clients in seventeen counties within school districts and the community, with more expansion on the horizon. Voices Together uses our specialized and evidenced-based VOICSS® model to increase communication and social/emotional learning in individuals on the Autism spectrum and who are otherwise neurodivergent. Our proprietary method is evidence-based and considered a best practice, supported through a strong research partnership with Duke University. Voices Together is expanding in Pre-Employment Transition Services through our work with the North Carolina Department of Health and Human Services Division of Vocational Rehabilitation.

The ideal candidate enjoys and is skilled in group session work, has a good knowledge of basic counseling and therapeutic methods, is energetic, collaborative, and works well with a team. Team values include demonstrating professional communication skills, integrity in managing working hours, and prioritizing the clients' best interests. We offer opportunities for advancement within the organization and specialized training in our proprietary model.

Our therapists serve various counties across North Carolina. The candidate will be a crucial part of our team, and Voices Together will provide peer support in all locations. Reliable transportation is a must. For more information, please visit our website: [www.voicestogether.org](http://www.voicestogether.org).
